

Company Profile & Capability Statement

Custom architectural aluminium — planters · screening · balustrading

Bubbalooba Pty Ltd (ABN 15 151 030 796) trading as PO Box Designs | Version 1.0, July 2026

Custom architectural aluminium — designed, fabricated and finished to specification. PO Box Designs manufactures custom aluminium planters, screening and balustrading for landscape architects, commercial specifiers and tier 1 and tier 2 builders across Victoria and nationally.

Who We Are

PO Box Designs (Bubbalooba Pty Ltd) is a Ballarat-based custom aluminium fabrication business specialising in architectural metalwork — aluminium planters, screening and balustrading — for landscape architects and commercial specifiers. We work from an approximately 1,750m² workshop in Delacombe and combine local fabrication with an established offshore factory partner and a dedicated overseas drawings team, giving specifiers both local responsiveness and scalable capacity on a single quality standard.

What We Do

- **Custom aluminium planters** — bespoke planters for commercial, residential and public-realm landscape projects, in a full range of powder-coat finishes.
- **Architectural screening** — decorative and privacy screening, laser-cut and folded to specification.
- **Balustrading** — aluminium balustrade systems for terraces, roof levels and common areas.
- **Standardised stock range** — a range of standardised planter products for shorter lead times, alongside fully custom fabrication.

Our Capability & Differentiators

- **Dual manufacturing model** — local Ballarat fabrication for responsiveness and complex custom work, supported by an established offshore factory partner for volume and value — both to a single quality standard.
- **In-house drawings capacity** — a dedicated drawings team produces shop drawings that integrate with specifier documentation, reducing coordination time.
- **Specifier-focused** — we work directly with landscape architects and specifiers, providing specification support, section details and CPD-style guidance.
- **Quality-controlled finishes** — powder-coating by Dulux Accredited coaters to AS 3715, with documented quality control from incoming material to pre-dispatch inspection.

- **Compliance-ready** — full suite of policies, OHS documentation, SWMS, insurances and warranties suited to tier 1/2 and government prequalification.

Recent & Representative Projects

- **Maleela Rise, Balwyn** — custom powder-coated aluminium planters, screening and balustrading across multiple levels of a multi-residential development (builder: Figurehead).
- **47–49 McNamara Avenue, Airport West** — planter box supply for a commercial/residential development.
- **1 Osborne Avenue, Glen Iris** — custom planter fabrication.

Detailed project references and a capability portfolio are available on request.

Standards, Accreditations & Insurances

- Quality framework aligned to ISO 9001 principles; finishes to AS 3715; maintenance to AAMA 610.1.
- Powder-coating by Dulux Accredited Powder Coaters.
- OHS managed under the OHS Act 2004 (Vic) and OHS Regulations 2017 (Vic); SWMS library maintained.
- Public/Products Liability, Professional Indemnity and WorkCover insurances held — certificates on request.

Let's work together. For capability details, project references, or to begin prequalification, contact us at info@poboxdesigns.com.au or 03 4333 9271.
